The Sioux Gardens

T. E. Barber & Sons, Props.

Grand Forks, N. Dak.

As we are located on the famous battle field of the Sioux here in North Dakota and also due to the fact that we have run across so many good indians throughout the many countries where glads are grown, we have finally decided after several years deliberation in giving our plantings the name of "The Sioux Gardens," in honor of the vanishing tribe that first inhabited our broad planes of North Dakota.

You will see by our list that we have specialized upon foreign originations in particular, not that we think any the less of our domestic stock but we are trying to bring new foreign originations before the American Glad buyer so that they may see what is being done in other countries outside of the United States.

We try to obtain stock of the best in foreign countries for the use of exhibitors and hybridizers and we often have to pay double duty on our stock to get it before the U. S. buyer at an early date so that they may obtain stock shortly after released by the originators, so do not criticize us if our prices appear to be out of proportion with the originators, provided you get this stock with short delay after dissemination by the originators.

We have many foreign varieties that are new that we are increasing our stock on and will be listed next year, which if you want in particular we can furnish in small amounts from such growers as Mairs, DeGrootz, Lemoine, Errey, Whiteley, Doney Pitzer, Gaetz and others among the first class hybridizers in foreign countries.

PLEASE TAKE NOTE OF TERMS.—Extras on Cash Orders Only. On cash orders of \$2.00 to \$5.00 select 10% extra in bulbs or bulblets; \$5.00 to \$25.00 select 15%; \$25.00 to \$50.00 select 20% and above \$50.00 select 25%. **Discounts apply to cash orders only.** Kindly make two selections on each item on discount extras so if we are short in any item we can substitute your choice.

At the present writing some of the growers have cut their first published listings 33⅓% and in answer we will say that provided these prices quoted by growers are not prices quoted through liquidation of bankruptcy proceedings, we will fill your orders when delivered to meet any of the quoted prices of reputable growers who are still solvent and will fill your orders with extras to take care of any fluctuations that may exist in prices published by us now and other responsible growers prices published before March 1st, 1933. So leave it to us and we will guarantee entire satisfaction.

We do not care to fill any single item less than 20c and will accept no orders less than \$2.00 and we will prepay all retail orders of \$2.00 or more by mail throughout the Postal Union. 25% cash with order holds until March 15.

We solicit early orders and you will find the early orders will get the cream of the extras. We will ship by mail after March 15th and express before then at **purchaser's risk.** All stocks guaranteed true and free from disease as is humanly possible for us to deliver them. All orders subject to prior sale.

Might say that we have harvested a very fine crop of clean stock and have had very little trouble with pest except with grasshoppers this year.

We wish to thank our former customers for their patronage and solicit your continued patronage which will have our careful attention in the future as has been our policy in the past.
